SECTION THROUGH KITCHEN-DINING, LOOKING SOUTH

WARDROBE
 UNDERGROUND ELECTRICITY SUPPLY
 Provision to be made by installing a 2" pipe from bottom of meter box to 2" below bottom of foundation.

TO ALL ARCHITECTS, BUILDERS AND APPLICANTS FOR BUILDING PERMITS
 The Drainage and Plumbing Regulations, 1995, do not permit building over any drainage or sewerage system or connecting drains under. At the commencement of constructing these regulations are usually most expensive all present surrounding building and structure or any additions should be re-examined - discuss this problem with the Christchurch Drainage Board to ensure that the trouble does not occur. Best advice taken prior to building would save unnecessary expense.

Builder will be held responsible for any damage done to footpaths.
 CHIMNEYS
 All chimneys to have 4mm² vertical reinforcing rods and floor lines.
